产品分类简介 >>

自给式呼吸器气瓶（SCBA气瓶）

自给式呼吸气瓶由于内胆采取铝合金制造，重量较传统钢瓶减轻70%。优越的结构设计及生产工艺保证产品耐用性强，安全系数更高。产品符合DOT、EN、HSE等国际标准要求，在消防、医疗、矿山等领域有广泛应用。阀门、附属设备及瓶口螺纹可根据客户要求配备或定制。

SCBA cylinders (Self-contained breathing apparatus cylinders)

The liner of breathing apparatus cylinders are made by high strength aluminum, thus the weight is 70% lighter than conventional steel cylinders. Advanced construction and producing technology provide long working duration and high safety factor. Cylinders can be made to many safety standards all over the world, such as DOT, EN, HSE, etc. They have a wide application in the fields of firefighting, medical and mine industry.

NET supplies two types of cylinders for your choice:
